Prologis announces binding agreement with Macquarie Asset Management to acquire FIBRA Macquarie management rights

FIBRA Prologis announces intent to launch tender offer for up to 100% of FIBRA Macquarie's CBFIs upon receipt of regulatory authorizations

MEXICO CITY (February 25, 2026) – FIBRA Prologis (BMV:FIBRAPL 14), Prologis Property México, S.A. de C.V. ("Prologis"), and Macquarie Asset Management México, S.A. de C.V. ("Macquarie"), are pleased to announce that they have entered into a binding Transaction and Covenant Agreement (the "TCA") under which Macquarie has agreed to transfer to Prologis all of its rights and obligations under the management agreement entered into between Macquarie and FIBRA Macquarie (the "Macquarie Management Agreement"), subject to the satisfaction of certain conditions.

The sale of the management rights is conditioned upon, among other customary conditions, the acquisition in a tender offer by FIBRA Prologis of at least a majority of the outstanding real estate trust certificates ("CBFIs") of FIBRA Macquarie not held by Macquarie. The tender offer will be for up to 100% of the outstanding CBFIs issued by FIBRA Macquarie. Under the TCA and in connection with the management rights sale, an affiliate of Macquarie that owns FIBRA Macquarie CBFIs has agreed to sell, subject to certain conditions, its CBFIs to FIBRA Prologis at the tender offer price.

For such purposes, FIBRA Prologis has made a filing to obtain all required governmental approvals, including from the Mexican Banking and Securities Commission (*Comisión Nacional Bancaria y de Valores*), and intends to launch a tender offer and exchange transaction for up to 100% of the outstanding FIBRA Macquarie CBFIs at a fixed exchange ratio of 0.525 FIBRA Prologis CBFIs for each FIBRA Macquarie CBF, or an amount in cash equal to MXN\$40.00 per FIBRA Macquarie CBF, up to a maximum total cash amount of MXN\$7,973,113,970, which is equal to 25% of all outstanding FIBRA Macquarie CBFIs as of February 24, 2026, and which offers the holders of the CBFIs issued by FIBRA Macquarie a premium to the 60-day volume-weighted average price as of February 24, 2026 close of approximately 20% on a blended basis. FIBRA Prologis intends to launch the tender offer in the second quarter of 2026, subject to obtaining the required corporate and regulatory approvals.

The tender offer to be launched by FIBRA Prologis will also be subject to customary conditions, including the prior approval of the Mexican Banking and Securities Commission. This press release does not constitute a tender offer or any other public offering of securities in or outside of Mexico.

On the Proposed Transaction

Prologis looks forward to collaboratively and expediently working with Macquarie towards satisfying the necessary conditions and successfully closing on the acquisition of the management rights and assuming the obligations of Macquarie under the Macquarie Management Agreement.

“We are pleased to have entered into an irrevocable agreement with Macquarie to acquire its management rights, including FIBRA Prologis acquiring its affiliated holding of CBFIs at the tender price” said Armando Fregoso, President, Prologis Latin America. “We have long respected the quality of FIBRA Macquarie’s portfolio and the platform and reputation it has built across Mexico’s real estate markets. By combining portfolios, we expect to operate at greater scale and create stronger long-term value for all CBFi holders.”

“This agreement reflects the constructive discussions we’ve had with Prologis and our shared focus on long-term value,” said Eric Wurtzebach, Global Head of Real Estate at Macquarie Asset Management. “Our priority has been continuity, strong governance and a thoughtful path to value creation for CBFi holders.”

In addition to the broader benefits the transaction brings to the platform, FIBRA Prologis intends to reduce expenses for the combined vehicle by introducing an additional tier in the asset management fee structure. This new tier would reduce the current 50 basis point fee on assets under management exceeding \$10 billion by 20%, to 40 basis points.

Strengthening Position in Mexico’s Core Logistics Markets

The proposed transaction comes as Mexico’s industrial market continues to benefit from nearshoring and steady domestic demand for modern logistics space. By combining the portfolios, FIBRA Prologis would expand into key markets that support manufacturing and trade growth across the country.

“This transaction reflects our long-term conviction in Mexico’s industrial real estate fundamentals and our continued focus on creating value for our FIBRA Prologis holders by adding a high-quality portfolio in a core market,” said Héctor Ibarzábal, Managing Director, FIBRA Prologis. “We’re grateful to Macquarie Asset Management’s senior leadership for their commitment to strong governance and long-term value creation.”
